

Kiiru Mark Alex Gachango

Computer Science Student

✉ markgachango@gmail.com

☎ +60177268530

📍 Sepang, Malaysia

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in software and application development across C++, Python, Kotlin, and modern web technologies. Experienced in developing object-oriented, database-driven, and mobile applications, with practical exposure to Django, Flutter, Flask, React, SQL, Firebase, and Git. Demonstrated ability to translate real-world requirements into functional software through projects spanning AI-assisted learning, healthcare management, Android applications, and web development. A motivated and adaptable developer with a strong foundation in problem-solving, software engineering principles, and continuous technical learning.

SKILLS

Front-End Development: HTML5 | CSS3 | JavaScript | UI/UX Design | React

Programming Languages: Python | Kotlin | C | C++

Frameworks & Platforms: Django | Flutter | Flask | React

Databases: SQL server | Firebase | Superbase

Tools: Git | Github | Docker | Bash Scripting

Operating Systems: Unix | Linux(Ubuntu) | Windows | MacOS

Software: Figma | Matlab

EDUCATION

Xiamen University Malaysia,

Bachelors of Engineering in Computer Science and Technology (Honours)

09/2024 – Present | Sepang, Malaysia

Cascade Institute of Hospitality , *Certificate in Computer Packages*

07/2023 – 09/2023 | Thika, Kenya

Emobilis Technology Training Institute ,

Certificate in Full Stack Software Development

01/2023 – 06/2023 | Nairobi, Kenya

Mang'u High School , *Kenya Certificate of Secondary Education*

01/2019 – 12/2022 | Thika, Kenya

PROJECTS

Personal Portfolio Website

09/2026 – 09/2026

- Developed and deployed a responsive personal portfolio website using **Next.js**, **React**, **TypeScript**, and **Tailwind CSS** to showcase technical skills, projects, experience, and professional background.
- Designed a modern, interactive user interface with reusable components, responsive layouts, and optimized navigation to provide a seamless experience across desktop and mobile devices.
- Implemented modern web development practices including component-based architecture, optimized typography with **Next.js Font**, responsive styling, and production-ready deployment through **Vercel**.
- Structured the application using the **Next.js App Router** and maintained the project with **Git/GitHub** for version control and continuous development.

Skills demonstrated: Next.js | React | TypeScript | Tailwind CSS

StudySmartAI — AI-Powered Study Application

05/2026 – 08/2026

- Developed an AI-focused study application designed to support students with learning and study management.
- Implemented application logic in C++ within an Xcode-based development environment.
- Applied object-oriented programming and software design principles to structure application components.
- Designed the project with an emphasis on improving the organization and accessibility of study resources.

Skills demonstrated: C++ | OOP | Xcode | Application Development | AI/EdTech

Hospital Management System

04/2026 – 08/2026

- Developed a **C++-based hospital management application** for organizing and managing healthcare-related records.

LANGUAGES

English

Kiswahili

German

CERTIFICATES

Certificate in Computer

Packages: Cascade Institute of Hospitality, September 2023

Certificate in Full Stack Software

Development: Emobilis Technology Training Institute, July 2023

- Implemented object-oriented programming concepts to structure patients, appointments and system operations.
- Designed modular application components to support efficient management and retrieval of information.
- Applied software development and data-management principles to model a real-world administrative system.

Skills demonstrated: C++ | OOP | Data Structures | System Design | Xcode

Looket App — Android Application

04/2023 – 07/2023

- Developed an Android application using **Kotlin** and the Android development ecosystem.
- Structured the application using Android project architecture and Gradle-based dependency/build management.
- Implemented interactive application functionality and user-facing components for a mobile environment.
- Gained practical experience developing, testing and organizing a Kotlin-based Android application.

Skills demonstrated: Kotlin | Android | Gradle | Mobile Development | UI Development

CRUD Web Application

02/2023 – 02/2023

- Developed a database-driven web application using **Python and Django** implementing Create, Read, Update and Delete (CRUD) operations.
- Integrated **SQLite** for persistent data storage and management.
- Built dynamic web pages using Django templates and structured the application using the Django framework.
- Implemented server-side application logic and database interaction for managing application records.

Skills demonstrated: Python | Django | SQLite | HTML | CRUD | Backend Development
